

## MEMBERSHIP

If a student is enrolled for only one semester, he or she may be accepted as a member with full privileges.

October 20 is the deadline for submitting the membership list and dues to national and state offices to qualify for Gold Seal Awards and certain mailings from the national office.

After the first semester dues deadline of October 20, state mailings will not be sent to chapters until dues have been received.

February 15 is the deadline for submitting dues for additional members, who would be eligible for district and state competitive events or for state officer positions.

Chapters may not be chartered, activated or reactivated after the second semester membership dues deadline.

A local chapter may not be divided into A and B chapters while maintaining only one charter.
